LEELA: What's happening? Why can't we move?

JACK: My legs, I can't move my legs!

THE DOCTOR: (QUIETLY) It's psychotelekinetic - controls your muscles telepathically.

(HE PICKS UP THE GUN CAREFULLY. HE NEVER TAKES HIS EYES OFF THE CREATURE, WHICH IS WEAVING SLIGHTLY FROM SIDE TO SIDE)

JACK: Gun's only loaded with rock salt.

DOCTOR: No matter. It's confused because I'm still able to resist it. Close your eyes. Concentrate on your legs. When I shout, Run!

alley?

DOCTOR: Yes.

COLBY: Natural selection turned
back on itself and a creature
evolved which prospered by absorbing
the energy wavelengths of life
itself?

DOCTOR: Um.

39. 3 C
MCU DOCTOR

COLBY: It ate life, all life
including that of its own kind?

DOCTOR: That's right, in other
words the Fendahl. The Time Lords
got wind of it and decided to destroy
the whole planet and then hid the
fact from posterity. Between you and
me they're not supposed to do that

So what happened was that the latent
energy amassed by the Fendahl was
stored in the skull and then slowly
dissipated as a biological transmuta-

that came within the field was altered
so that it would ultimately evolve
into something suitable for the Fendahl
